

## MidOhio.Net Dial-Up Access Settings Macintosh OS X 10

1. Click on the Apple menu and select "System Preferences."
2. Click on the "Network" icon.
3. Select "**Internal Modem**" from the "Show" drop-down menu.
4. Click on the "TCP/IP" tab.
5. Select "**Using PPP**" from the "Configure" drop-down menu.
6. The "IP Address," "Subnet Mask," & "Router" should say "**Provide by PPP server.**"
7. In the "Domain Name Servers." box, type **209.190.102.2** and hit Enter. Then type **209.190.102.9** and hit Enter.
8. Type "**midohio.net**" in the "Search Domains" box.
9. Click on the "PPP" tab.
10. Type "**MidOhio.Net**" in the "Service Provider" field.
11. Enter the "Area Code" and "Telephone Number" from the following table:

| <b>Your Location</b> (by local phone prefix, not city) | <b>Area Code*</b> | <b>Telephone Number</b> |
|--------------------------------------------------------|-------------------|-------------------------|
| Ashville, Mount Sterling                               | 614               | 3408743                 |
| London, Pataskala, Plain City                          | 614               | 6756797                 |
| Delaware, Johnstown, Sunbury                           | 740               | 3624636                 |
| Baltimore, Lancaster                                   | 740               | 4220121                 |
| Centerburg, <i>Franklin County</i>                     | 740               | 5491300                 |
| Marysville, Richwood                                   | 937               | 3482230                 |
| North Lewisburg, West Mansfield                        | 937               | 6426432                 |

*\*Enter the area code only if it is required to make this call from your location.*

12. Enter your username in the "Account Name" field.
13. Enter your password.
14. Check the box next to "Save password."
15. Click on the "Apply Now" button.
